

Webrecruit ATS 19.06
Feature Sheet

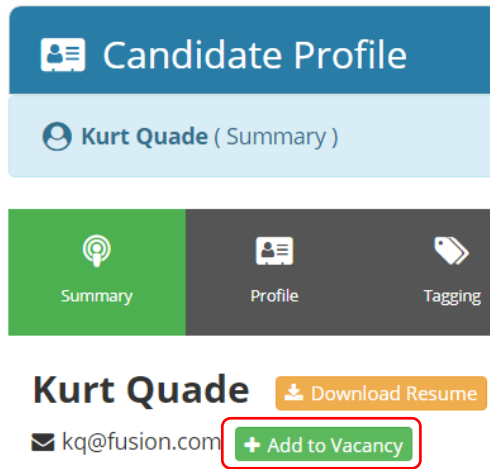

- Candidate Feedback - Bulk Action
 - You can now send bulk candidate feedback requests, allowing you to ask for feedback from many candidates at the same time

- Interview Outcome - Offer & Hire Stage Move
 - When choosing Offer or Hire as an interview outcome, you will now be given the option to move the application to the respective recruitment pipeline stage automatically

The 'Log Outcome & Feedback' form shows the 'Offer' outcome selected in a dropdown menu. Below it, the question 'Mark candidate as Offer?' has 'Yes' selected with a radio button. A text area contains the feedback: 'Great interview, very enthusiastic and will fit in well with the team'. A 'Save Outcome' button is at the bottom.

- Candidate Profile - Add to Job
 - You can now add a candidate to a job directly from their Candidate Profile

- Confirmation step when deleting documents from applications
 - When deleting documents and files from the system, there is now a confirmation step before the deletion occurs
- Time to Hire/Offer - Closing Date Column
 - A 'Date Closed' column has been added to both the 'Time to Offer' and 'Time to Hire' reports

Job Title	Date Created	Date Closed	Date Hired	Days Elapsed
Business Analyst (BA123REG_2)	25 March 2019	04 June 2019	23 May 2019	59
Pharmacy Technician (PT/01)	23 January 2019	07 February 2019	28 January 2019	5
Pharmacy Technician (PT/01)	23 January 2019	07 February 2019	28 January 2019	5
SQL Developer (SQL/01)	11 December 2018	22 February 2019	21 January 2019	41

- UK date format
 - All dates within Webrecruit ATS will now show in the UK date format (DD/MM/YY)
- Change 'Save Interview' button to 'Send Interview'
 - When arranging an interview, the 'Save Interview' button has been relabelled 'Send Interview'
