

Webrecruit ATS 19.09 Feature Sheet

- Job Requisition – Super User permissions
 - Super Users can now edit details of approved Job Requisitions.

A screenshot of the 'Edit Job' form in the Webrecruit ATS. The form is titled 'Edit Job' and has a blue header bar with 'Back to jobs' and 'Preview' buttons. Below the header, there is a message: 'Edit the job details below.' and a green 'OK' button next to 'Email Alerts'. The form is divided into two main sections: 'Job Outline' and 'Additional Information'. The 'Job Outline' section contains fields for 'Job Title *' (Development Lead), 'Job Reference *' (WRDL01), 'Location *' (Exeter, UK), 'Expiry Date *' (01 Oct 2019), and 'Function/Specialism *' (IT). The 'Additional Information' section contains fields for 'Location - Town/City *' (Exeter) and 'Department/Directorate *' (Technology).

- This allows for the requisition itself to be approved, without restricting the ability for Super Users to subsequently tweak details.
- Anonymised Candidate Screening – enhancements
 - Hiring Managers can now apply tags in bulk to anonymised applicants
 - Activity audit trails will be visible to Hiring Managers but only show anonymised data
- Applicant Feedback on mobiles
 - The Applicant Feedback survey has been fully optimised for candidates using mobile phones and tablets.

A screenshot of the 'Feedback Request' form for a Customer Experience Assistant. The form is titled 'Feedback Request for: Customer Experience Assistant'. It contains a section titled 'Feedback' with the text: 'Please rate your experience of the application process. You may use the box below if you would like to leave any feedback on the application process.' Below this text is a rating scale from 1 to 10, with 10 being the highest rating. Below the rating scale is a text box containing the feedback: 'The process was slick and easy. I really appreciated being informed as to my progress along the way.' At the bottom right of the form is a green 'Submit' button.
